PROJECTS

E-Commerce Website
HTML5, CSS, JavaScript, SQL, PHP

- Developed a fully functional E-Commerce website using HTML, CSS, JavaScript, PHP, and SQL.
- Implemented secure payment gateways and checkout processes to ensure safe transactions.
- Integrated backend functionalities for managing product inventory, orders, and user accounts.
- Designed responsive layouts to ensure optimal performance across various devices and screen sizes.
- Utilized JavaScript for client-side interactivity and dynamic content generation.

Hotel Booking Website
HTML5, CSS, JavaScript,SQL, Php

- Developed a comprehensive hotel booking website from scratch utilizing HTML, CSS, JavaScript, and PHP, alongside backend technologies. Implemented user-friendly interface design and integrated secure payment gateways to facilitate seamless transactions. Incorporated features such as real-time room availability checking, user reviews, and booking management system, with PHP handling server-side functionalities. Ensured compatibility across multiple devices and browsers for enhanced user experience.

Traffic Sign Classification
Python

- Developed a sophisticated traffic sign classification system using Python, leveraging machine learning techniques and computer vision libraries.
- Utilized Python libraries such as OpenCV and TensorFlow for image processing and feature extraction, contributing to the accuracy and efficiency of the classification system.
- Designed an intuitive user interface for easy interaction with the classification system, allowing users to input images and receive accurate predictions regarding the traffic signs present.
- Designed an intuitive user interface for easy interaction with the classification system, allowing users to input images and receive accurate predictions regarding the traffic signs present.

SUMMARY

Results-driven and detail-oriented web full-stack developer Proficient in both front-end and back-end technologies, including HTML, CSS, JavaScript, PHP, and SQL. Skilled in utilizing frameworks such as React.js and Node.js to create responsive and scalable web solutions. Experienced in database design, implementation, and optimization for efficient data management. Proven ability to collaborate with cross-functional teams to deliver high-quality projects within deadline constraints. Seeking an opportunity to leverage my expertise in full-stack development to contribute to innovative projects and drive business success.
